How to make All of a Flutter Toppers

You will need:

- All of a Flutter Stamp Set - FTLS383
- All of a Flutter Die Set MSTONE085
- Ink Me! Cardstock
- Premier Craft Tools Acrylic Block - PCT09
- Alcohol-based Ink Pad
- Die-Cutting Machine
- Low-Tack Tape

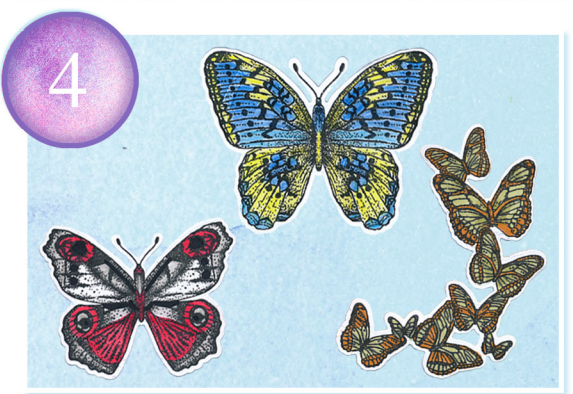

1 Begin by placing your stamp on an acrylic stamping block, apply ink in your preferred colour and stamp the design on a piece of Ink Me! cardstock.

2 Using the corresponding aperture die, line up the outside edge of the die with the inside edge of the stamped frame. They should match up perfectly making it easy to position. For further assistance, we have included a guide. Secure with Low-Tack Tape and pass through your die-cutting machine.

3 Using the wing dies, line up the inside edge of the dies with the outline of the stamped butterfly's wings. They should match up perfectly. Secure in place using Low-Tack Tape and pass the dies and cardstock through your die-cutting machine.

4 Colour as desired to complete your toppers. Ink Me! Cardstock is perfect for using with Prism Ink Pads and Prism Craft Markers.
