## How to use your Festive Moments: Deck The Halls Dies

### To make a Z-Fold card you will need:

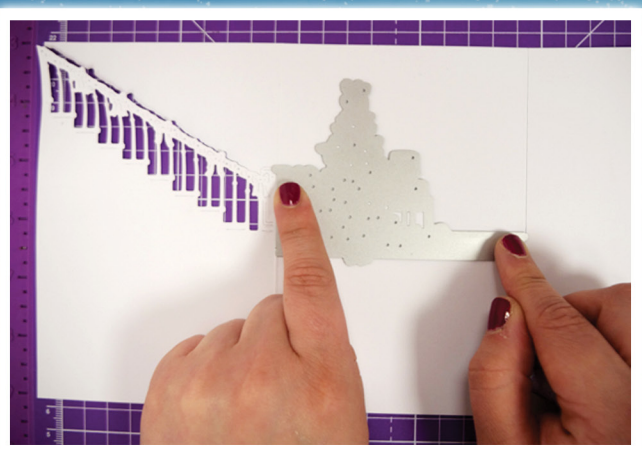

- Festive Moments: Deck The Halls Die Set – MSTONE105
- 6" x 4" Z-Fold Fancy Shaped Card Blanks - SHA281
- Low-Tack Tape
- Die Cutting Machine

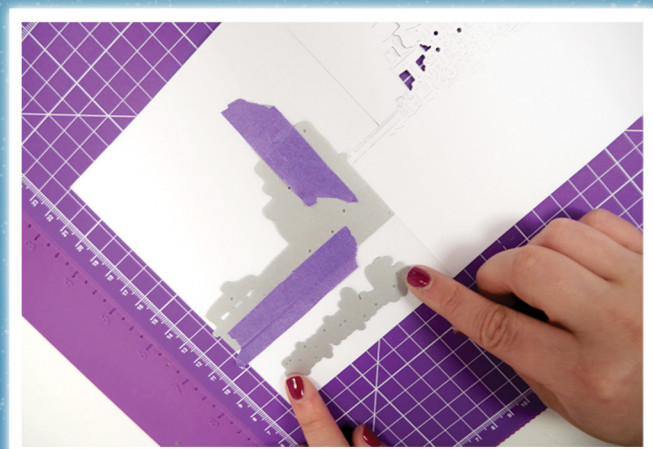

1. Begin by folding along all the score lines of your 6" x 4" Z-Fold card blank, then open it out flat.

2. Take the back die and line it up with the top right corner of the card blank; secure using low-tack tape. The dies have straight edges to ensure they align with the edge of the card blank and score line. Pass the card blank and die through your die cutting machine.

3. Remove the first die and turn your card blank over. Take your middle die and line it up in the middle of your card blank, between the score lines, so the outer cut line continues. Secure using low-tack tape and pass through your die cutting machine.

4. Remove the die and turn your card blank over again. Line up your front die with the previous cut line and secure along with your sentiment die. Pass both through your die cutting machine.

5. Decorate your card if desired and display as shown.
